Never Worry about phone line cuts again

We have advised our clients in previous newsletters and as stated on your alarm monitoring agreement, that the alarm system is often dependent on a working phone line at your premise. Now a new technology that utilizes the internet is becoming available to monitor your alarm system and supervise the connection to your premise. This new technology utilizes your High Speed internet connection to constantly poll your alarm system at a rate even faster than conventional technologies such as DVACs. Please contact your representative for details and availability.

Before you switch to Voice over IP (VOIP)

High Speed internet is becoming as common place as the average telephone and will likely soon replace your standard telephone. Voice Over IP (VOIP) is a technology that allows voice communication over the internet. The cost savings and portability is making this more popular. In the future you may not have a standard phone line at your premise only an internet connection that will provide you your television, phone and alarm monitoring.

If you do decide to use this new technology just be aware that most alarm systems still require a standard phone line to operate properly. You may be tempted to cancel your existing phone line which could prevent your alarm system from functioning. Please contact your representative if you are considering this option.

High Speed not Available Where you Live, No Problem

Huronia Alarm & Fire Security is now a dealer of Candlelight Communications Wireless High-Speed Internet Access.

Many of our clients that live in rural areas have been waiting for High Speed internet to arrive for quite a while. Wireless internet is now available in most parts of our area and is 100 times faster than dialup. For more information visit www.candlelight.ca

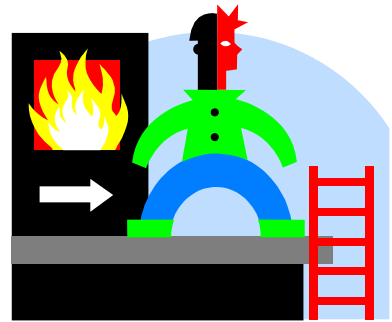

Fire Protection Log Books and Fire Safety Plans

Any building with a fire alarm system requires a fire department approved fire safety plan as per The Ontario Fire Code section 2.8.2

Huronia can now provide you with Fire Safety Plans and Log Books

Contact Rick Collins for more information

YOU COULD BE A WINNER OF ONE YEAR OF FREE MONITORING!!

ONE YEAR FREE MONITORING

The information age

On a daily basis technology is changing. A new software allows us to now send service invoices, statements and monitoring invoices directly to your email. Every customer that signs up for receiving invoices via internet will be entered in a draw to receive **one ~ year free monitoring.**

Please indicate if you would like this newsletter emailed to you as well.

Entries must be received by September 30, 2005.
Draw will be held October 1st, 2005

Happy Retirement to Paul Quick

Paul calls Midland home now after being born and raised in Leamington Ontario.

After a successful career and retirement from Ontario Hydro, Paul started as a sales representative for Huronia in 1996. Paul's honesty and integrity made him well respected amongst his fellow staff and clients.

Paul is now enjoying his new found free time traveling and catching up with his grandkids.

The staff of Huronia wishes Paul well as he enjoys his well deserved retirement.

Huronia Alarm & Fire Security Inc.

Huronia Alarms provides pre-authorized debits and visa payments for your monitoring.

To learn more about these options, please contact Cristine Hogg in the accounting office at 526-9311 ext 511

Increase in Gas Prices

Due to the ongoing increases in vehicles gas prices as well as other costs, our service rates may be increasing.

Switching Roles

Most of you all know Chris Edwards as one of our veteran technicians. Chris is now specializing in residential security sales.

If you know anyone with a home or a small business and needs security, contact Chris and you may get 3 months free monitoring.

Client Referral Program

Take advantage of our “client referral program” tell all your friends and neighbours about us and when they mention your name when purchasing a system from us you will receive a coupon for 3 months free monitoring.
