HURONIA'S FIVE YEAR COMMITMENT TO GEORGIAN COLLEGE

Five years ago we [committed to donate \\$25,000 to Georgian College's John Di Poce South Georgian Bay Campus.](#)

This month we made our final installment of \$5,000. The Power of Education fundraising campaign provided awards and scholarships to make post-secondary education possible for those who may not otherwise be able to afford it. The campaign also helped increase access to state-of-the-art education facilities and technologies.

Supporting local fundraising campaigns and allowing people who live and work in the area to receive world-class educational opportunities is part of our corporate donation philosophy.

AUTOMOTIVE KEYS - GET THEM CUT TO CODE AND PROGRAMMED AT HURONIA.

Advances in key-chip technology, to improve automotive security, often means that you have to go back to the car dealer when keys get lost or damaged. Or to have additional keys cut for your car, truck or SUV.

[Come and visit Huronia first!](#)

[Huronia has a full range of chipped and standard keys for all North](#)

[American and most import cars that we can make while you wait.](#) And we are usually less expensive than the Dealership.

We are also available 24 hours a day, 7 days a week for emergency call-out situations (705-445-5318) [Click here for a full list of lock and key products and services we provide.](#)

ONGOING TRAINING FOR OUR TECHNICIANS

Three of our installation and service technicians were recently received their certification as part of from the [GeoVision Security Surveillance](#) technical training program. George, Miles and Jacob are now qualified to install and maintain GeoVision's digital security surveillance systems. As a long-time GeoVision distributor, we offer our Customer's top-of-the-line IP cameras, surveillance systems, access control and integrated software solutions to help them better manage their security surveillance requirements.

Jacob and Miles also completed their Axis Network Video Exam and are now [Axis Certified Professionals](#) in network video technologies, solutions, products and best-practice techniques for design and implementation. Certifications like these are important for our Customers because it validates our ongoing commitment to ensuring our technicians are up to date on the ever-changing advancements being made in security system technologies. This allows us to continue to offer our Customer's the best products and service available in the market today.
